IF YOU ORDER NOW FOR EARLY SPRING DELIVERY

Nine years ago we offered our customers an opportunity to purchase two year old, field grown roses of the \$1.00 to \$1.50 grade at less than half regular prices, as a special winter advertising leader. The response was so immediate and general that this great annual rose sale has become an established institution, to which our customers look forward, and on which they depend to replant and add to their rose gardens. Each year this sale is featured with increasing success. Every years sales have doubled over that of the preceding year, which is pretty conclusive evidence of its popularity.

This being the ninth of these great annual rose sales, and conditions being what they are, we determined to make it bigger and better, including high priced varieties never before offered in a sale of this kind, drastically reducing our already low pre-season sale price, giving our customers the greatest rose values ever offered, making it the GREATEST OF ALL PRE-SEASON ROSE SALES.

Our great annual rose sale price this year, 39c each, is the lowest price in our history. And we truly believe roses of this quality have never before been offered at so low a price by anyone. We have made this price possible by somewhat reducing the list of varieties, retaining only the most desirable, most popular, and newest roses; by a radical reduction in overhead and labor costs, and last but not least, by cutting our profits to the lowest possible point in order to give you the greatest possible value during this period when everyone must keep their expenses down to the minimum.

You will find many of the newer and unusual varieties in this rose list, varieties you would not expect to be able to purchase for 39c, varieties that you will find catalogued next spring as high as \$2.00 each. Order now, and they are yours at this very low cost, 39c each, or better still, 10 for only \$3.75, order at once, and get full value from this great annual rose sale by ordering all the roses you will want to plant next spring. Remember, this offer is good only until January 1, 1933, so make your selections and SEND IN YOUR ORDER NOW.

5 DOZEN CHOICE BEDDING Hyacinths ONLY \$2.49

A large bed, or border of Hyacinths, is very impressive and adds wonderfully to the enrichment of spring lawns and garden views; no other spring flower will present such a gala array of colors.

Everyone admires the Hyacinth, and large plantings of Hyacinths would be as general as the planting of Tulips, except for one reason—price. We have now removed this reason. Through the fortunate purchase of the surplus of one of the large Holland growers, we are able to offer choice Bedding Hyacinths, in a complete color range, at little more than the ordinary price of good Tulips.

Never before, and perhaps never again, will you be offered such a price on fine Holland grown Bedding Hyacinths, but you have the opportunity RIGHT NOW, and you should take advantage of it by ordering in quantities. Order all you have room to plant, but we would suggest that you do it immediately, as even the immense stocks we have arranged for, cannot possibly last very long at such an unusual price for fine Bedding Hyacinths.

20 Paperwhite Narcissus

Paperwhites were one of the most popular bulbs for winter flowering indoors, until the government embargo put an end to their importation making them so scarce they were almost unobtainable and so high in price as to be prohibitive to the average flower lover.

98^c

Paperwhites, of a quality that compares favorably with those formerly imported from Europe are now being grown in considerable quantities in Florida, California, and other sections of the U. S. where the soil and climate has been found favorable for their propagation. These stocks are now available but the quantity produced is, of course, very small compared to the former importations, and of necessity slightly higher in price, but by contracting early last summer for our supply we were able to secure a figure on them that enables our customers to again enjoy the beauty and fragrance of Paperwhites this winter without paying exorbitant prices.

Paperwhites grow best in water with pebbles to hold them firmly in the bowls. Keeping them well watered they will bloom for you in a few weeks time without any other care. By starting them early they can be had in flower for Christmas, and by starting them at intervals they can be kept in bloom 'til Easter. A dollar or two invested in Paperwhites will pay big dividends by filling your home with bloom all winter long.
